

Lethbridge Local Immigration Partnership

- Lethbridge Alberta population 100,000.
- Small center in a rural area 2 hours South of Calgary

About Lethbridge LIP

- Officially started June 2016.
- It is housed at Lethbridge Family Services (LFS), a not for profit agency— In the department of Immigrant Services (IS). It is the only settlement agency in Lethbridge.
- I have been the only Coordinator throughout of the initiative.
- I was the only LIP staff member until October 2022 —when we received funding for an Administrative Assistant position. Our current Admin assistant has been here since August 2022.

Prior to LIP

- When it was announced that Lethbridge would be receiving a number of Syrian refugees, some key stakeholders such as settlement, the city of Lethbridge, education, health, social services, began to meet regularly in preparation for their arrival to the community.
- In the meantime, LFS began its application to IRCC for a LIP Initiative.
- Once we were esablished and it came time to form our CPC...I reached out to those original Stakeholders, as well as the agencies who had provided support letters during the application stage.
- We had our first meeting!

TOR's

- We contracted an external facilitator to work with this group, for a morning session. This turned out be an integral part of the process that helped us build a foundation and basic structure of our LIP
- The information gathered in that session was incorporated into our ToR's a very robust document which included our Mission, Purpose, and basic structure. It has served us very well.
- We found out after the fact that it was not an expenditure allowed ...and had to find funds to pay for it.. But, it was totally worth it.

Our Main Council

- Our first committee, our main council, "Community Partnership Council" (CPC) began with about 10 members.
- Our CPC meetings are by invitation only. The partner needs to be in a decision-making role in their organization.
- Each working group has a chair, the chair attends the CPC to share what their working group has been doing.
- There are only 4 meetings per year.
- Members can have a designated alternate if they choose.
- We ask for a year comittment (4 meetings)

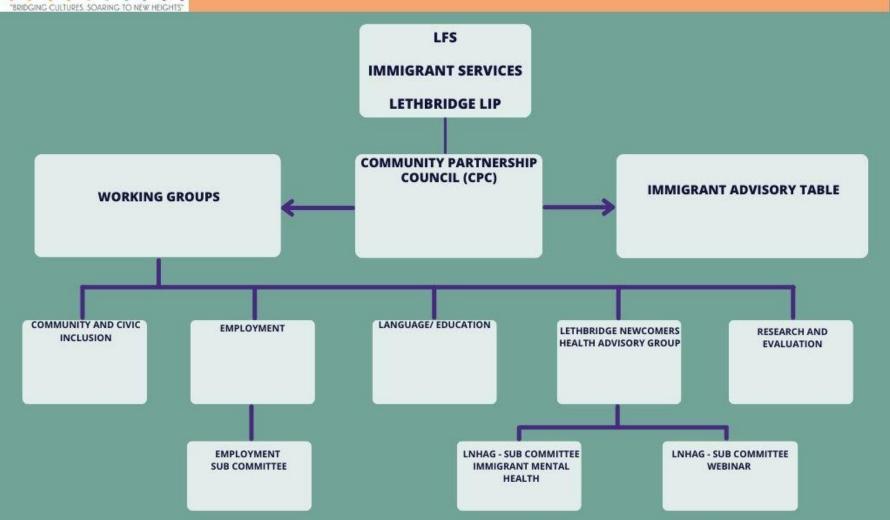

Fast forward to 2023

- The total of Lethbridge LIP's Partnership currently is represented by:
 - 13 Sectors
 - 36 Organizations
 - 84 Members
 - and has a CPC, IAT and 5 working groups and 3 sub comittees.
- A total of 10 comittees!

Lethbridge Family LETHBRIDGE & AREA LOCAL IMMIGRATION PARTNERSHIP Services

Lethbridge LIP is a community development initiative funded by Immigration, Refugees and Citizenship Canada (IRCC). The main purpose of LIP is to involve the community in the settlement of immigrant newcomers with the intention of making Lethbridge a welcoming and inclusive community.

Membership list – with an explanation of each committee and the projects they are working on which corresponds with our Theory of Change.

Lethbridge Local Immigration Partnership (LIP) Membership List

Updated January 2023

13 Sectors - 36 Organizations - 84 Members

- Lethbridge LIP is a community development initiative, funded federally by Immigration Refugees Citizenship Canada (IRCC), and has been active in Lethbridge since June, 2016. The initiative is a program of Lethbridge Family Services, in the Immigrant Services Department.
- The main purpose of a LIP is to involve the community in the settlement of its immigrant newcomers, with the intention of making Lethbridge a welcoming and inclusive community.
- Every LIP across the country, and there are about 80 of them, has a main advisory council, which is sector based, several working groups and an Immigrant Advisory Table (IAT).
- Lethbridge LIP has 5 working groups and 3 sub committees. Each committee has a designated Chair who reports back to the Community Partnership Council (CPC).
- Lethbridge LIP is staffed by one full-time Coordinator who attends all committee meetings.
- Lethbridge LIP's website, <u>www.LethbridgeImmigration.ca</u> was designed in consultation with our working groups and was created and is maintained by Webmarks Inc. We also have a Facebook page.
- Our IAT members volunteer their time and have immigrated to Canada from different countries.
- Lethbridge LIP is very grateful for the involvement and enthusiasm of all its partners, members and volunteers.

LETHBRIDGE LOCAL IMMIGRATION PARTNERSHIP

Intended Impact

- Over the next 5 years, Lethbridge LIP will support local service providers, employers, community members and policy makers to increase their awareness, strengthen capacity and foster collaboration to better meet needs of newcomers.
- As a result, more newcomers will attain meaningful employment, will feel welcome and will be increasingly integrated within the community of Lethbridge.
- Ultimately, our work aims to reduce discrimination, stereotyping and racism resulting in a Lethbridge that is more inclusive and that values diversity as a strength.

COMMITTED PARTNERS

Team with partners who are aligned, committed, and actively contribute to the ongoing implementation of the LIP Settlement Strategy.

- 1 Increase collaboration among Community Partnership Council (CPC) and LIP working groups, service providers, employers, agencies, organizations, other relevant coalitions and advocacy groups.
- rrategie
- Leverage each other's strengths through intentional collaborations.

AWARENESS AND EDUCATION

Raise awareness and provide education amongst service providers, employers, policy makers, residents and newcomers about culturally safe principles, diversity and immigration.

- 3 Increase traffic to Lethbridge LIP website and appropriate social media platforms.
- 4 Create educational materials, and strategies to disseminate them, that are accessible to the public including the value of immigration for Canada.

STRATEGIES

Host and promote targeted educational webinars, conferences, workshops, awareness campaigns, public forums and events.

MEANINGFUL EMPLOYMENT

Understand the specific needs of newcomers in relation to attaining meaningful employment.

- 6 Collect employment data in a variety of ways from both newcomers and employers.
- Maintain or establish network of employment organizations and mentoring programs to connect employers and newcomers.
- 8 Pilot programs with specific employers focused on immigrant recruitment.
- Connect newcomers to employment tools such as resume writing, language training, interviewing and Canadian workplace norms, entrepreneurship, job coaches and mentors.

CONNECTED TO COMMUNITY

Create opportunities for newcomers, mainstream Canadians and cultural groups, to celebrate, acknowledge challenges, share diversity and connect with each other through voice, expression and experience.

- 10 Share the newcomer journey/ stories/experiences/culture, including the barriers and challenges associated with settlement.
- 11 Encourage the integration of mainstream services, social, health, cultural and community events.
- 12 Promote and nurture effective cross-cultural communication.

STRATEGIES

13 Inform and connect newcomers to the services, resources and language supports they require for successful settlement.

ONGOING LEARNING

Conduct needs assessments and evaluation to identify changing needs and gaps, gather opinions and evaluate LIP initiatives.

- 14 Conduct ongoing needs assessments including participant and public polls and surveys.
- 15 Analyze evaluations to measure outcomes related to the LIP action plan.

STRATEGIES

"It is all about Relationships"

- Like any relationship, they take time to grow and nuture. Their needs to be trust. Follow through is key.
- I believe that community relationships must be reciprocal not just one sided.
- We support our partner organizations as much as we can. Attend their events, help if they need it, promote their initiatives. Help them connect with other members or other community resources.
- I meet with each member or potential member (preferably in person) and preferably before they attend a meeting. I talk about LIP but also want to learn about them and their organization.
- From the outside looking in it is not readily evident how much time this takes or how truly crucial

Monitoring meeting attendace is key

- Our meetings are relatively well attended. Only once had our CPC not have quorum (50% of members +1) which is required for voting. We did have quorum by the end of the meeting.
- When any of our meetings begin to waver in attendance we view that as our biggest indicator that something isn't right and needs to be investigated!
- We begin to ask questions... of ourselves as well as the committee... has the committee full filled its purpose? Does it need a different time? Are the right people at the table? Then we go into action!

Meetings

- We always have an agenda aim to get them out a week prior to the meeting (not always but we try)
- Minutes (our working group meetings are more of summary highlighting action items.) The CPC minutes are more formal.
- Now, that we have an admin, it has taken the pressure off the coordinator and chairs (who were responsible for agendas and minutes).... Minutes are a deliverable, they are extremly important.
- We have the most attendance at meetings when there is a project or something they are working towards – not just chatting. They need to feel they are contribbiting as well as gaining something from their time.

Respect our partner's time.

- Our partners are using their time and their employers time, and we honour that.
- For the most part, we plan meetings, if we can, for the year.
- We send calendar invites.
- We keep to the meeting time.
- We keep them productive and meaningful.
- We do our homework and make sure we are prepared.

Structure

- We keep our structure simple
- Using IRCC's guideline of a minimum of 4 meetings per year each individual committee decides the frequency of meetings.
- We do not have an Executive Committee
- Each committee has a chair or 2 co-chairs.
- I do not chair meetings on a regular basis. (Only if required.)
- We do have an interagency meeting Lethbridge Interagency Network (LIN) which I chair, but it is not considered a working group.
